## Overview

## About this document

The statutory gender pay gap disclosure, does not align with the financial year of Inspired PLC (the "Group") or include all employees in all parts of the business.

As such this supplemental report sets out the total position for the Group.

When presenting the diversity and gender pay gap ratios for the Group we refer to the \% of the minority gender, which in some cases for Inspired PLC can be men at certain levels of the organisation.

## Setting targets

Our diversity targets can be summarised as:
"For any level of the organisation no gender should be represent less than $37.5 \%$ of the employees."

Some readers will ask why the target is not $50 \%$ and the answer lies in simple mathematics.

When a team has an odd number, a 50\% target is impossible to achieve. When a team has an even number, if we want to avoid positive discrimination, the maximum target a team of 8 can have for the minimum gender is $37.5 \%$. This represents a swing of one person from a 50:50 balance.

## Gender diversity

Group gender diversity (increase of $2 \%$ on 2022 figure, 48\%)

Gender diversity for levels 1 to 3
(increase of $3 \%$ on 2022 figure, 24\%)

Gender diversity for levels 4 to 5
(increase of $1 \%$ on 2022 figure, $46 \%$ )

## Gender pay

Group gender pay gap (decrease of $2 \%$ on 2022 figure, 27\%

Avg gender pay gap by grade level

$$
\text { (no change on } 2021 \text { figure, 7\%) }
$$

66\%

Gender diversity for level 6 (decrease of $2 \%$ on 2022 figure, 68\%)

At each level of the organization there is no differentiation in pay for men and women of equal experience and performance.

The 7\% average variance reflects the differences in experience and performance of people at each level of the company.

The group gender pay gap arises largely from our low level of diversity in senior leadership positions. This is the key focus area for improvement.

## Evaluating our performance

At a Board level the company has a 29\% gender diversity ratio.

During 2022, our overall gender diversity increased by $2 \%$. Our gender diversity is ahead of target for levels 5 to 6 of our Group, and just below (34\%) for level 4.

Gender diversity at the leadership levels (levels 7 to 3 ) improved by $4 \%$ to $24 \%$, but it is still significantly below our target at that level of the business.

Our overall gender pay gap remained constant at $27 \%$ for 2022 . The root cause of our disparity for the pay of the minority gender remains our low level of diversity at senior management levels.

## Review of FY 2022

We have made some progress during 2022 with respect to gender diversity. The overall number of employees at the year end in the UK was 650 (539 FY2021), a growth of $21 \%$. Male employees were the majority gender in 7 of our operating levels and women were the majority gender at 5 of our operating levels, with parity for one level. Our overall gender diversity was $48 \%$. Our primary area for improvement remains to improve our gender diversity in levels 7 to 3 in our organisation for which we have started to implement the following programme:
a) Set gender and diversity targets for every business level at $37.5 \%$
b) Regularly review HR processes to ensure gender diversity bias is removed
c) Continue to provide access to additional leadership training for women in the organisation
d) Develop a Science, Technology, Engineering and Mathematics (STEM) scholarship programme for girls and young women in Inspired PLC's local communities.
